

NW Training Integration Study Team Minutes
22 March 2001
Meeting held via Telephone Conference call

1. The Team reviewed the Training Team POA&M, after a short discussion it was agreed that the Team was at 100% and could support integration at any time.
2. Forklift training, PSNS, Mr. Rutter, reported that IMF personnel will be required to take the PSNS training to operate a forklift within the CIA. The training will be 8 hours. After some discussion, IMF will confirm their actual requirements for forklift operators in the Shipyard, and advise at the next meeting.
3. Welder workmanship – PSNS advised that Technical Manual 248 requires welders to understand inspection requirements and be able to do inspections. IMF welders will be required to comply when working in the Shipyard. After some discussion, it was determined that IMF may already provide this training to their welders and that the QA inspection is in addition to the welders inspection. IMF will check on their procedures and will advise the Team at the next meeting.
4. The meeting adjourned at 09:30, the next meeting will be on 29 March 2001 at 09:00 via telephone conference call.
